

Angelic In Heart

Edison Glass

You are a jewel, virtue, treasure
Angelic in heart, painting grace
With every passing moment
I'm falling in love with You
You are the one I love the most
It's You, are the one that I adore
You're my morning song, evening lullaby
Kindness is killing me
Soft words will be my ending
With every passing moment
I'm falling in love with You
You are the one I love the most
It's You, are the one that I adore
With Your extraordinary love
I'm finding it so easy
To fall in love with You
To fall in love with You
This three-strand cord shall not be broken
If Jesus is the center
And as this ring which has no end
Neither shall my love
You are the one I love the most
It's You, are the one that I adore
With Your extraordinary love
I'm finding it so easy
You are the one I love the most
It's You, are the one that I adore
With Your extraordinary love
I'm finding it so easy
