

Undiscovered

Bay B Kane

Take it back, take it all back now
The things I gave like the taste
 Of my kiss on your lips
 I miss that now
I can't try any harder than I do
 All the reasons I gave
 Excuses I made for you
 I'm broken in two
 All the things left undiscovered
Leave me empty and left to wonder
 I need you
 All the things left undiscovered
Leave me waiting and left to wonder
 I need you, yeah, I need you
 Don't walk away
Touch me now how I wanna feel something
 So real please remind me my love
 And take me back
'Cause I'm so in love with what we were
I'm not breathing I'm suffocating without you
 Do you feel it too?
 All the things left undiscovered
Leave me waiting and left to wonder
 I need you
 All the things left undiscovered
Leave me empty and left to wonder

 I need you, yeah, I need you
 When I'm in the dark and all alone
Dreaming that you'll walk right through my door
 It's there I know my heart is whole
 There's a millions reasons why I cry
 Hold my covers tight and close my eyes
 'Cause I don't wanna be alone
 All the things left undiscovered
Leave me waiting and left to wonder
 I need you
 All the things left undiscovered
Leave me empty and left to wonder

I need you, I need you
'Cause I can't fake and I can't hate
But it's my heart that's about to break
You're all I need I'm on my knees
Watch me bleed won't you listen please
I give in, I breathe out, I want you there's no doubt
I freak out, I'm left out, without you I'm without
I cross out, I'm kicked out, I'm cry out, I reach out
Don't walk away
Don't walk away
Don't walk away
Don't walk away
