

Tonight

Milk Inc.

I never knew
I could miss you so
Holding on to a dream
Never letting go

I never thought
Though it's been a year
You would be here

Tonight, tonight..
when we're together baby
Tonight, tonight..
will last forever baby
Tonight, tonight..
we will feel alive

Tonight, this is where I wanna be
Holding you so close to me
Holding you forever

Tonight, this is what I wanna say
Everything's gonna be OK
Holding you forever

I never knew
I could miss you so
Holding on to a dream
Never letting go

I never thought
Though it's been a year
You would be here

Tonight, this is where I wanna be
Holding you so close to me
Holding you forever

Tonight, this is what I wanna say
Everything's gonna be OK

Holding you forever

Tonight

When we're together baby

Tonight, tonight...

will last forever baby

Tonight, tonight...

when we're together baby

Tonight, tonight...

will last forever baby

Tonight, tonight...

when we're together baby

Tonight, tonight...

will last forever baby

Tonight, tonight...

we will feel alive

Tonight, this is where I wanna be

Holding you so close to me

Holding you forever

Tonight, this is what I wanna say

Everything's gonna be OK

Holding you forever
