

# London Town

Kim Richey

Take me down to London town  
Travel card on the Underground  
Pretty girl on a bridge on a cloudy day  
Lost my way in London town I saw green and I saw gold  
In between falling walls of snow  
Chasing shadows on a hill on a cloudy day  
Lost my way in the green and gold If only you were here we could make it together  
I miss you when I'm gone, you make everything better  
Wishing I'm back, wishing I'm back with you  
Boardwalk on the Brighton Beach  
I saw a light but it was out of reach  
A fishing boat on a wave on a cloudy day  
Lost my way on the Brighton Beach If only you were here we could make it together  
I miss you when you're gone, you make everything better  
Wishing I'm back, wishing I'm back with you  
I don't wanna stop, I don't wanna stay  
I don't wanna stop, I don't wanna stay  
I lost my way in London town  
I lost my way in London town
