It Could Be Us

Leon Power

I sit all alone
Now I'm doubting it all
From the rise to the fall
From the fast to the slow and
You really wanna know
I need in every door
I've never said it before
Now you know that I'm

Waitin'
Pacin'
Hopin'
That you feel love
Thinkin'
I start thinkin'
It could be us, it could be us

I don't know, I'm so scared that it could be us
I don't know, everything I'll have to give up
I don't know how to give you my trust
That's just us
That's just us

You said you wanna know, but it's probably best you don't
People come and then they go, I guess I'll just be one of those
But I needed you before
You did and now I don't
Ain't it funny how it goes
Now you know it, I bet you're

Waitin'
Pacin'
Hopin'
That you feel love
Thinkin'
I start thinkin'
It could be us, it could be us

I don't know, I'm so scared that it could be us
I don't know, everything I'll have to give up

I don't know how to give you my trust
That's just us
That's just us

I don't know, I'm so scared that it could be us
I don't know, everything I'll have to give up
I don't know how to give you my trust
That's just us
That's just us
That's just us
It could be us
That's just us
It could be us
That's just us
It could be us
That's just us
Be us
