

# Casualty

Nicole Scherzinger

Too close to see so much of love we stop breathing  
Sweet history ain't enough to keep my heart beating  
So many tips for you I sacrificed  
Too many lies for you I justified  
How can you stand there sayin' you know who's to blame  
How can you verify everything is OK Don't tell me you love me  
Then put a gun to my head  
And say I'm not trying, no  
Don't tell me you want me  
Then come to my bed  
And then tell we're not dyin'  
One of us has gonna be  
A one of us has gonna be  
A casualty It's cold in here  
And my heart's to want you to hold me  
Baby you never hear  
But when you with me I can say it now I see you talking but your lips don't lipsynch  
You see me crying but my tears don't hurt you now  
How can you stand there sayin' you know who's to blame  
How can you verify everything is OK Don't tell me you love me  
Then put a gun to my head  
And say I'm not trying, no  
Don't tell me you want me  
Then come to my bed  
And then tell we're not dyin'  
One of us has gonna to be  
A one of us has gonna be  
A casualty Breathe in Breathe out  
Baby without to fit that over and over again  
I stand there to as you call but then I'd fall over and over again Don't tell me you love me  
Then put a gun to my head  
And say I'm not trying, no  
Don't tell me you want me  
Then come to my bed  
And then tell we're not dyin'  
One of us has gonna to be  
A one of us has gonna be  
A casualty One of us has gonna to be  
A one of us has gonna be

A casualty
