

Get Out the Way

Bobby Brown

Yeh

I see you doing well and it's a beautiful thing yeh
Seems like you've got them right where you want to oh yeh
You're on top now you can't stop this thing you've got going on
Then you start to relax yeh The very same people who built you up
Are the same ones right there to take you down
Hey what you gonna say when they move to the next best thing Get get get get out the way

Get get get get out the way

What you gonna do when they don't love you like they used to

Put your love down, I'm here to stay

Get get get get out the way

Get get get get out the way

Get out the way Now your notice in everything is changing

Nobody's acting like you matter no more

The trend is over

I'm memorising, never fading, not trippin on what they're saying

No, cos that shit don't bother me, no The very same people who built you up

Are the same ones right there to take you down

C'mon c'mon

Hey what you gonna say when they move to the next best thing

Get get get get out the way

Get get get get out the way

Hey What you gonna do when they don't love you like they used to Pack it up now, I'm here to stay

Get out the way

Get out the way C'mon, let's get 'em I'm always bold, I keep movin on

Cos nothing can change my mind

To don't the truth

Of all I've been thru I'm keeping my berth for life, yeh

Hey what you gonna say when they move to the next best thing

Get out the way

Get out the way

Hey What you gonna do when they don't love you like they used to

Pack it up now, I'm here to stay

Get out the way Hey what you gonna say when they move to the next best thing

Get out the way

Get out the way

Hey What you gonna do when they don't love you like they used to

Pack it up now, I'm here to stay

Get out the way

Get out the way
Hey what you gonna say when they move to the next best thing
Get out the way
Get out the way
Hey What you gonna do when they don't love you like they used to
Pack it up now, I'm here to stay
Get out the way
Get out the way
