Blooddrunk

Nochaa

They say drinking is a way to die
But at the end... Dying is a way to drink
Unquenchable thirst burns you inside
The ruins of already burnt out mind
Inexhaustable craving for something
You're already crying
Degenerate drunk with a razor blade
Strung out spilling your own blood
Exterminate scars already made
Ready for another drink, can you wait?
Detoxing, here come the withdrawals
whispering Maybe you've gone too far
Deep within things are getting hot

Can't deny, take another shot
Blooddrunk - Wasted again
Inside, all the pain will fade
Blooddrunk - You call me insane
Degenerate bloodrunk with a razor blade
Degenerate drunk with a razor blade
Strung out spilling your own blood
Exterminate scars already made
Ready for another drink, can you wait?
Blooddrunk - Wasted again
Inside, all the pain will fade
Blooddrunk - You call me insane
Degenerate bloodrunk with a razor blade
