Plan B

Badly Drawn Boy

Not now baby, I haven't got the time
Not now baby, I haven't got the time
Not now baby, I haven't got the time
If at first we fail
Just wait for it to mature like a diamond
So when your lover, doesn't love you anymore
And you discover, you may have been through this before
And there's no answer, there's certainly no cure
To this disease, it leaves you wanting more
The saints and sinners behind the former line
And all you winners, I'm with you all the time
All you winners, I'm with you all the time
All you winners behind the former line
B B B B
So when your lover, doesn't love you anymore
And you discover, you may have been through this before
And there's no answer, there's certainly no cure
To this disease, it leaves you wanting more
Maybe we're just heading for disaster
We're better than this it's just another chapter
If everything fails we change the rules
Revert to plan B
Maybe we're just heading for disaster
We're better than this it's just another chapter
If everything fails we change the rules
Revert to plan B
