

# Tearjerker

Fenix Tx

Picture's on the wall, just waiting there to fall  
Still remind me  
That painful holiday, can almost hear you say  
"Please don't miss me too long"  
What did I do wrong? Could've sung a different song  
You were my tune  
Make my heart believe, a want is not a need  
And I'm all right without you  
The days go by, the nights don't change  
The stars still spell out your name  
I will wait for you

The world has let me down, is it you're just not around?  
I've lost my reason  
All the memories, every smile you gave to me  
You can keep them  
The days go by, the nights don't change  
The stars still spell out your name  
I will wait for you, I will wait for you  
I will wait for you, I will wait for you  
I will wait for days go by and still I will wait for you
