

# Superstar Remix (Ft. Jayz, Kanye, Nas)

## Lupe Fiasco

If you are what you say you are  
A super star  
Then have no fear the camera's here and the microphone and they wanna know  
Oh oh oh oh  
If you are what you say you are  
A super star  
Then have no fear the crowd is here and the lights are on and they want a show  
Oh oh oh oh Yea, uh  
A fresh cool young Lu  
Trying to cash his microphone check 2, 1, 2  
Want to believe my own hype but it's too untrue  
The world brought me to my knees  
What have you brung you  
Did you improve on the design  
Did you do something new  
Well your name ain't on the guest list  
Who brung you, you  
The more famous person you come through  
And the sexy lady next to you  
You come to  
And then it hit me  
Standing outside of heaven waiting for god to come and get me  
I'm too uncouth  
Unschool'd to the rules  
And two gum shoe  
Too much of a newcomer  
And too uncool  
Like Shadow and Lavelle  
I battle with it well  
Though I need a holiday like lady who song blue  
Go back what ever you did you undo  
Heavy is heaven  
The devil on my two tons too  
If you are what you say you are  
A super star  
Then have no fear the camera's here and the microphone and they wanna know  
Oh oh oh oh And you better wear your shades  
The spotlights here can burn holes through the stage  
Down through the basement  
Passed the Indian graves

Where the dinosaurs laid  
And out through china  
Nearly misses air liners  
Magnified times five  
This is pointed at the rhymer  
Ricochets off the moon and sets the forest a blaze  
Now that's important to say  
Cause even with all of that  
Most of us don't want it to fade  
We want it to braid  
Meaning we want it to grow  
Meaning we want it to stay  
Like the governor called  
And they told him to wait  
Un-strap him from the chair  
And put him back in his cage  
The audience ain't fazed  
And they ain't gone clap and they ain't gone praise  
They want everything back that they paid  
Cause they been waiting since ten to see the lights get dim  
If you are what you say you are  
A super star  
Then have no fear the camera's here and the microphone and they wanna know  
Oh oh oh oh So chauffeur chauffeur come and take me away  
Cause I been standing in this line  
For like five whole days  
Me and security ain't getting along  
And when I got to the front they told me all of the tickets were gone  
So just take me home where the mood is mellow  
And the roses are thrown  
M&M's are yellow  
And the light bulbs around my mirror don't flicker  
Everybody gets a nice autograph picture  
One for you and one for your sister  
Who had to work tonight but is an avid listener  
Every songs a favorite song  
And mikes don't feed back  
All the reviewers say you need to go and see that  
And everybody claps cause everybody is pleased  
Then they all take the stage and start performing for me  
Like ha ha ha ha ha  
Ha ha ha ha ha half If you are what you say you are  
A super star  
Then have no fear the camera's here and the microphone and they wanna know  
Oh oh oh oh  
If you are what you say you are

A super star  
Then have no fear the crowd is here and the lights are on and they want a show  
Oh oh oh oh
