

# The Sheep Song

## The Dresden Dolls

[Incomprehensible]  
Look I made America  
Hush, hush, dont, dont rush  
Time for crying, time to crashBrown wine, turpentine  
Everything will be just fine  
Sleep now, never fear  
All your animals are hereCounting sheep I lay me down to sleep  
But I see a sheep who will not leave  
From the back they catch him in a trap  
Hit his head and send him off to bedCutting by numbers is kinder  
Invest in one with a silencer  
All of the studies say if theyre  
Calm when they die they taste betterCutting by numbers is kinder  
Invest in the one with the silencer  
All of the studies say if theyre  
Calm when they die then they taste betterGoodbye, olive sky  
I am crying all the time  
There, there, dont despair  
We will find your sheep somewhere
