Hello

Hawk Nelson

You never ever leave my mind
My sweet, sweet, Madeline
Every time I look into your eyes
I feel like I'm alive
And I can barely make a sound
Whenever you're around
You can find me hiding in the crowd
Next time you come to town
Hey, hey, I've been waitin' all day
Every time I want to say hello
Every time I want to stay, I go
Can't ever find the words to let you know
Sometimes you play my mind a million times
And every time I want to say hello
Every time I want to stay, I go
Can't ever find the words to let you know
Sometimes you play my mind a million times
Wish I could somehow let you know
That all the way from here to Mexico
You're the one and only girl for me
Hehe tu es un, bonjour, oui oui
And my tongue gets tied so quick
I get so nervous I'm feelin' sick
And turn into the world's worst Romeo

Every time I try to say hello
You're so fine, been on my mind
Get nervous every time I see you hop online
Every time I want to say hello
Every time I want to stay, I go
Can't ever find the words to let you know
Sometimes you play my mind a million times
And every time I want to say hello
Every time I want to stay, I go
Can't ever find the words to let you know
Sometimes you play my mind a million times
Every time I want to say hello
Every time I want to stay, I go
Can't ever find the words to let you know

Sometimes you play my mind a million times
And every time I want to say hello
Every time I want to stay, I go
Can't ever find the words to let you know
Sometimes you play my mind a million times
Every time I want to say hello
Every time I want to stay, I go
Can't ever find the words to let you know
Sometimes you play my mind a million times
