

# Honeymoon Express

## Wendy & Lisa

I get so lonely when I think of you  
I get the feeling our love is never new  
We watched each other going many different ways  
Come with me let's meet at the station  
Where we first started  
Then we make love, life in the world  
Seems like we're living on rainbows  
Take a ride  
On the Honeymoon Express  
Take a ride  
On the Honeymoon Express  
You're dreaming of me, I am dreaming of you  
How long will it be till the dreaming is through?  
Take me now let's go for a ride  
Come with me let's meet at the station  
Where we first started  
Then we make love, life in the world  
Seems like we're living on rainbows  
Take a ride  
On the Honeymoon Express  
Take a ride  
On the Honeymoon Express  
Come with me let's meet at the station  
Where we first started  
Then we make love, life in the world  
Seems like we're living on rainbows  
Take a ride  
On the Honeymoon Express  
Take a ride  
On the Honeymoon Express
