Clue Me In

Park

Two cigarettes
Lying close together
Trying their best to forget
The heaving in their chestOne says I'm sorry
If I made you sad
I just wanted to kiss you
To say that I hadNights like this, it's you I miss
Is this the effect you expected to get
So caught up and clueless in all these conclusions
Sorry I let you down, just being myselfClue me in
Exercise caution but tell me again
Clue me in
Exercise caution but tell me againNights like this
I catch up with
This camera's eye
And you're so shy
And it's you I missWide eyed, angled release
Smoke me down to the filterClue me in
Exercise caution but tell me again
Clue me in
Exercise caution but tell me againOne says I'm sorry
If I made you sad
I just wanted to break you
To say that I had
