# Love In Motion

## Divinyls

Makin' love and the world stops turning
Your body's so warm and your lips are like honey
Into the night, well I'm driftin' and driftin'
I'm caught in a dream, I'm lost but not lonely
The world stops turnin' and time stands still
Feels like the night will last forever
When love is in motion
(Love in motion)
When love is in motion
(Love in motion)
Deep inside, I can feel it comin'
A river of love, rollin' over my body, yeah
Driftin' with the tide
I don't care where it takes me
Carry me on, roll me over and over
The world stops turnin' and time stands still
Feels like the night will last forever
When love is in motion
(Love in motion)
When love is in motion
(Love in motion)
No time to worry, no time to lose
I can't see clearly but I can't be confused
No love can be as strong as this
I can't take it but I just can't resist
Oh no, oh no
Slow and easy, night is young
Need someone to love you? Let me be the one
Lay back baby, let the good feeling flow
Love is coming and I'm losing control
The world stops turnin' and time stands still
Feels like the night will last forever
When love is in motion
(Love in motion)
When love is in motion
(Love in motion)
I can feel it now
(Love in motion)
I can feel it comin', yeah

(Love in motion)
When love is in motion
(Love in motion)
When love is in motion
(Love in motion)
Oh, oh, yeah
(Love in motion)
Whoa ah
(Love in motion)
(Love in motion)
(Love in motion)
