

# Don't Get Lost In Heaven (Demo Version)

[Gorillaz](#)

Got off a plane to the countryside  
I drove to the mountain and holding the ground  
There was crack on the corner and someone dead  
And fire coming out of the monkey's headDon't get lost in heaven, eh  
They got locks on the gate, hey  
Don't go over the edge, eh  
You'll make a big mistake, heyPut me in a cab to suburbia  
I just took a line but I wasn't with you  
There was more of it there, when I got back home  
But you had left me, you don't know my soul  
You're a whole bad mistake, yeah, you're a whole oneDon't get lost in heaven, eh  
They got locks on the gate, hey  
Don't go over the edge, eh  
You'll make a big mistake, hey (big mistake)
