

# Don't You

## Antibazz

Don't you, don't you wanna party?  
Leave all the bullshit at the door.  
Don't you, don't you wanna party?  
Drink up so you don't have to think no more.  
But no, you just smile and hit the floor  
We all spend half our time,  
Running around, fucked out of our minds.  
We spend the other half,  
Sleepin' at desks praying just to get back.  
Just to get back  
Don't you, don't you wanna be famous?  
Buy things like you don't even care.  
Don't you, don't you wanna be famous?  
And everywhere you go have everybody stop and stare.  
But no, you go nowhere

We all spend half our time,  
Running around, fucked out of our minds.  
We spend the other half,  
Sleepin' at desks praying just to get back.  
Just to get back  
Don't you, don't you wanna know things?  
Secrets of the head and the heart.  
Don't you, don't you wanna know things?  
With every word you say you're tearing people's words apart.  
But no, you say no way. No time. Don't start  
We all spend half our time,  
Running around, fucked out of our minds.  
We spend the other half,  
sleepin' at desks praying just to get back.  
Just to get back  
Don't you wanna get back?
