

Leather

ASKA

Sufferin' guaranteed

You go and take a chance baby

I know just how it feels - yeah, feels goodYou're my leather, girl - crack down the whip

You're my leather, girlAnd I talk that way to you about it

You can't help how you feel goin'

I'll knock you on your knees and bleed you

And I will make it clearYou're my leather, girl - crack down the whip

You're my leather, girlWhy? Your flesh wrapped tight around me baby

Why are they always dyin' on me

it's just a little skin - I stick it in

Can't help how you feelYou're my leather, girl - crack down the whip

You're my leather, girl
