

# Survivor Guilt

## Rise Against

Block the entrances, close the doors  
Seal the exits, 'cause this is war  
All gave some, some gave all  
But for what? I wanna know Carry on, don't mind me  
All I gave was everything  
And yet you ask me for more Fought your fight, bought your lie  
In return I lost my life  
What purpose does this serve? A folded flag, a purple heart  
A family all but torn apart  
And I fought with courage to preserve  
Not my way of life but yours Carry on, don't mind me  
All I gave was everything  
And yet you ask me for more Fought your fight, bought your lies  
In return I lost my life  
What purpose does this serve? The cowards preach from pedestals  
With words like "courage," and "resolve,"  
But what they meant was "Fuck 'em all  
'Cause freedom isn't free" They send our daughters and our sons  
Deserts under burning suns  
A Sacrificial slaughtering  
To fill the pockets of the weak An artificial enemy  
Are we so easily deceived? They carry on Don't carry on, just walk away  
How many more sent to their graves  
In this lesson ignored? I fought your fight, bought your lie  
In return I lost my life  
What purpose does this serve?  
What purpose did I serve?
