

Last Night

Buddy Holly

Last night, as I watched the stars from my window
I pray Lord above to guide and protect you
Though Im not wanted now, I still love you somehow
That is my only prayer for you
Last night, as I gazed through the mist in my eyes
I wanted you here, to hold you so near
But silence tells me you didnt hear my plea
I miss you so much since you left me
My heart ached apart since you left me
Though Im not wanted now, I still love you somehow
That is my only prayer for you
