Raise Your Hands

Deep Blue Something

You amount to nothing
You are nothing
Do something
That's what she says
Please something
It's another rainy day
Life is gone and I don't care
I never cared
CHORUS:
And all she's asking
Is for comfort and can't you see
Well, I can't give it
I never could
So let me breathe
And please don't dye your hair
Raise your hands and say you're free
'Cause I would jump for joy and scream
But that's not me

You used to like it
You used to like me
What has happened
What is wrong
What could be wrong
The Pied Pipers will sing their song
The Little Lepers sing along
They'll sing along
CHORUS
You amount to nothing
You are nothing
Do something
And that's what she says
Please something
CHORUS
