

# Switchblade

## Laroque

I keep getting attacked by,  
The girl in the black hat  
The girl in the black hat  
I can't find any shade,  
But I'll be suede as long as I got a switchblade  
I keep getting the eye from,  
The girl in the thigh highs  
The girl in the thigh highs  
Whose iris is of jade  
And built to persuade  
And they're swift like a switchblade  
Switchblade  
Switchblade  
They're swift like a switchblade  
Switchblade  
Nobody wears it like you anymore,  
Nobody wears it like you anymore  
Light like a feather,  
Bright like a dying star  
Cut those together,  
Girl that is what you are  
Wild eyes forever,  
Built to punish and persuade  
I lied to get her  
But all I got was a switchblade  
A Switchblade  
So just give me the facts,  
Who's the girl in the black hat  
The girl in the black hat  
I can't find any shade,  
But I'll be swayed as long as I got a switchblade  
I think I'm getting her eyes,  
On all American thighs  
Her American thighs.  
She got her black hat,  
And irises of jade  
And I got a switchblade.  
Switchblade

Yes, I've got a switchblade

Nobody wears it like you anymore,  
Nobody wears it like you anymore

    Light like a feather,

    Bright like a dying star

    Cut those together,

    Girl that is what you are

    Wild eyes forever,

    Built to punish and persuade

    I lied to get her

But all I got was a switchblade

    A switchblade

Nobody wears it like you anymore,

    Nobody wears it like you

    I keep getting attacked by,

    The girl in the black hat

    The girl in the black hat

    I can't find any shade,

But I'll be swayed as long as I got a switchblade

    Switchblade

    Light like a feather,

    Bright like a dying star

    Cut those together,

    Girl that is what you are

    Wild eyes forever,

    Built to punish and persuade

    I lied to get her

But all I got was a switchblade

    Yes, I got a switchblade

    Light like a feather,

    Bright like a dying star

    Cut those together,

    Girl that is what you are

    Wild eyes forever,

    Built to punish and persuade

    I lied to get her

But all I got was a switchblade

    Yes, I got a switchblade...
