

Rainy Girl

Andrew McMahon In the Wilderness

Rainy girl
I can't wait to meet you
And I can't wait to hear your name
And sing it to the skies aboveRainy girl
Wash away my memory
Swimming through infinity, for you will be
My loveSometimes when I'm falling in my dreams
I can feel you falling next to me
I guess we're going everywhere together
Rainy girlThe sun is coming up for me
Black bird on a wire sings a song, so blueSometimes when I'm falling in my dreams
I can feel you falling next to me
Yes we're going everywhere together
Rainy girlHome at last
Following a cloudSometimes when I'm falling in my dreams
I can feel you falling next to me
I guess we're going everywhere together
Guess we're going everywhere together
Guess we're going everywhere together
Rainy girl
I can't wait to meet you
