

It's Already Christmas

Tatiana Manaiois

All I see is red and green
I know it's cold outside
But you should come with me in glee
There's a wreath on that door
Look at all these pretty lights
I swear I've seen this before
I get so lost track of time
'Cause I swear yesterday
I was only three
Now it's already Christmas
It's all-It's already Christmas Oh here we are once again
Bunch of family, bunch of friends
Oh sing with me, pretty please
Oh sing with me, yea
You can tell me what you want to do
And I will be down, because I'm down for you, yea
I'm down for you, yea
Hey-ey-ey
Look at the times we've had
Look at the life we lived
This is the perfect chance, the perfect chance to give
Look at the times we've had
Look at the life we lived
This is the perfect chance, the perfect chance to give
'Cause I swear yesterday
I was only three
Now it's already Christmas
'Cause I swear yesterday
I was only three
Now it's all-it's all
It's already Christmas
Look at the times we've had
Look at the life we lived
This is the perfect chance, the perfect chance to give
I said
Look at the times we've had
Look at the life we lived
This is the perfect chance, the perfect chance to give
Look at the times we've had

Look at the life we lived
This is the perfect chance to give
Look at the times we've had
Look at the life we lived
This is the perfect chance to give.
