Go The Distance

Alan Menken (Children's)

You got me headed in a new direction
Got no reason to turn around
Ain't no looking back or second guessing
It's time to find what love is really all aboutGo the distance
Let our hearts lead us on
All the way to forever tonightCan't resist it
The feelin's way too strong
Go the distance this timeThe road to love is paved with shiftin' gravel
We may find ourselves on shaky ground
And there ain't no place that these two hearts can't travel
Even when we're miles apart, together we are bound toGo the distance
Let our hearts lead us on
All the way to forever tonightCan't resist it
The feelin's way too strong
Go the distance this timeThere will be rainy days and bridges left to cross
But if we lose our way we can't get lost if weGo the distance
Let our hearts lead us on
All the way to forever tonightCan't resist it, no
The feelin's way too strong
Go the distance this time
They're gonna knowGo the distance, baby
Let our hearts lead us on
All the way to forever tonightCan't resist it, no
The feelin's way too strong
Go the distance this time
