Show Me

Evans Blue

You can imagine I'm alone tonight
And my eyes won't sleep at all
You've taken for granted what a life was like
You were the veins inside my arm
Now it's a vision, my thoughts are controlled
Used as a weapon and now I know
I can take your breath away
Show me how it feels to be inside you
I need to know right now
'Cause I can't live outside you, I've tried to
Feeling abandoned, feeling alright
'Cause your silhouette's still here
I'm barley standing on these feet of mine
And these bottles keep me here
Now it's a vision, my thoughts are controlled
Used as a weapon and now I know
I can take your breath away

Show me how it feels to be inside you
I need to know right now
'Cause I can't live outside you, I've tried to
No one, nowhere, no time to care
We all need someone, take me there
When there's no one to lose, no love to spare at all
Show me how it feels to be inside you
I need to know right now
'Cause I can't live outside you, I've tried to
Show me how it feels to be inside you
I need to know right now
'Cause I can't live outside you, I've tried to
I'm alone tonight
And my eyes won't sleep at all
