

Paper Waves

The Gathering

Sun comes out - Wakes me up
Wanna sleep, need to sleepSaw your face - In my dreams
Fade away, far awayFade away, fade awayYou took your time - Passing by
Smiles and tears - No one caresHad you once - Now youre gone
Want you here, Need you nearDreams and life it seems
Are crushing boundaries in me
Paper waves and seas - Ride the tide with meNeed to see - Youre not far from me
Im breaking time - Crossing linesI start to run - to catch the sun
from falling down - and burn this townI try to reach - You slip away
Cant you stay - Please just stayCold and warmth collide
Turning dark and light, inside
Nights we over fly - All logic gone awryTo know we might not meet again, I hardly bare to look at you
In all this mess we dont complain, we kind of always knew
