# Red Tail Lights

## Hinder

You're waitin' by the car as I pull in
And this is where the ending begins
Lookin' like you made up your mind
Like anything I say would be a waste of your time
But it's too little, too late
Too bad that we couldn't save it
Are we really gonna leave this way?
Give it all up and drive away
Girl, I swear I wasn't runnin' around
Just got sick of you puttin' me down
And who died and made you queen?
You can't put this all on me
Girl, our love's on the line right now
Should we fight and turn it around?
I know there's gotta be more to this thing
Than two hearts goin' their separate ways
Red tail lights in the pourin' rain, no, no, no, no
Baby, just roll that window down
I really wanna talk this thing out
We ain't gonna get nowhere screamin'
But if you believe every word you heard
I'm probably better off that you're leavin'
Girl, I swear I wasn't runnin' around
Just got sick of you puttin' me down
And who died and made you queen?
You can't put this all on me
Girl, our love's on the line right now
Should we fight and turn it around?
I know there's gotta be more to this thing
Than two hearts goin' their separate ways
Red tail lights in the pourin' rain
Too little, too late
Too bad that we couldn't save it
Are we really gonna leave this way?
Give it all up and drive away
Girl, I swear I wasn't runnin' around
Just got sick of you puttin' me down
And who died and made you queen?
You can't put this all on me

Girl, our love's on the line right now
Should we fight and turn it around?
I know there's gotta be more to this thing
Than two hearts goin' their separate ways
Red tail lights in the pourin' rain
But it's too little, too late
Too bad that we couldn't save it
Are we really gonna leave this way?
Give it all up and drive away
You're waitin' by the car as I pull in
And this is where the ending begins
