Kid

The Wannadies

I want to be everything
I have at least a million dreams
I want to be a football star
And play left-handed guitarI want a place for me and you
A tree house big enough for two
Cause in my dreams you always seem
To be a girl sweet as creamSo you grow your hair
Think it will get you out of here
You're no supernova
So you grow your hair
Think it will get you out of here
Kid CasanovaI want to be on TV
I want the endless drink for free
I want to fly around the world
I want to be a girlI want to swim in caviar
Experience some love bizarre
And in my dreams, you always seem
To be a girl full of sinSo you grow your hair
Think it will get you out of here
You're no supernova
So you grow your hair
Think it will get you out of here
Kid CasanovaI wanted to be everything
a butterfly...wingSo you grow your hair
Think it will get you out of here
You're no supernova
So you grow your hair
Think it will get you out of here
Kid CasanovaGrow your hair
-get out of hereGrow your hair
-get out of hereGrow your hair
out of hereGrow your hair
out of hereGet out of here
