Opening My Heart

Paul Renna

I was simply a wreak
Before you came along
I was turned upside down
My life was all wrong
But now here you are
Opening My heartWell I was shedding my skin
I was naked and confused
And I was lost in the clouds
With the rain and the blues
But now here you are
Opening my heartYou can spin me around
Open my heart
You can spin me around
Open my heart
You can spin me around
So open my heartWell I was blind now I see
So show me the way
And I was lost now I'm found
Its here that I wanna stay
Now here you are
Here you are
Opening my heartYou can spin me around
Open my heart
You can spin me around
Open my heart
You can spin me around
So open my heartNow here you are
Oh yes you are
Here you are
Oh yes you are
Here you are
Opening my heart
YeaYou can spin me around
Open my heart
You can spin me around
Open my heart
You can spin me around
Open my heart
You can spin me around

So open my heart
