

# Opening My Heart

Paul Renna

I was simply a wreck  
Before you came along  
I was turned upside down  
My life was all wrong  
But now here you are  
Opening My heart Well I was shedding my skin  
I was naked and confused  
And I was lost in the clouds  
With the rain and the blues  
But now here you are  
Opening my heart You can spin me around  
Open my heart  
You can spin me around  
Open my heart  
You can spin me around  
So open my heart Well I was blind now I see  
So show me the way  
And I was lost now I'm found  
Its here that I wanna stay  
Now here you are  
Here you are  
Opening my heart You can spin me around  
Open my heart  
You can spin me around  
Open my heart  
You can spin me around  
So open my heart Now here you are  
Oh yes you are  
Here you are  
Oh yes you are  
Here you are  
Opening my heart  
Yea You can spin me around  
Open my heart  
You can spin me around  
Open my heart  
You can spin me around  
Open my heart  
You can spin me around

So open my heart
