Everything I Need

Men at Work

Moving up and down and from side to side
With so many things to do
I want to go again I want another ride
This time should see it throughWe never realized as the years rolled by
No we never really had a clue
But we knew one day we'd come alive
And in the end there's me and youMy babe, she gives me everything
She gives me everything I needWhen the winter comes and the cold sets in
As this city's prone to do
They forecast heavy seas and gale force winds
That's really nothing newWhen I'm falling down
Deeper than the underground
My thoughts race back to you
Again and againMy babe, she gives me everything
She gives me everything I needAnd if you think us fools
And you criticize
Then my friend the joke's on youMy babe, she gives me everything
She gives me everything I need.
