

# Everything I Need

## Men at Work

Moving up and down and from side to side  
With so many things to do  
I want to go again I want another ride  
This time should see it throughWe never realized as the years rolled by  
No we never really had a clue  
But we knew one day we'd come alive  
And in the end there's me and youMy babe, she gives me everything  
She gives me everything I needWhen the winter comes and the cold sets in  
As this city's prone to do  
They forecast heavy seas and gale force winds  
That's really nothing newWhen I'm falling down  
Deeper than the underground  
My thoughts race back to you  
Again and againMy babe, she gives me everything  
She gives me everything I needAnd if you think us fools  
And you criticize  
Then my friend the joke's on youMy babe, she gives me everything  
She gives me everything I need.
