Soul Searching

Nico D

I'm looking for something, can't find it anyplace
It's there in the distance, starin' me in the face
Right in front of me, but it's way beyond my reach
And I know that I must try to find it
Doin' some soul searchin', lookin' for myself
Soul searchin', Lord, I need a little help
Soul searchin' 'cause time has slipped away
There's a dream I left behind in better days
The start of the story is not where it all began
So many directions, all of them a part of the plan
I've heard too many voices sayin', "This is the way to be free"
But I know where I can find the answers
Doin' some soul searchin', lookin' for myself
Soul searchin', Lord, I need a little help
Soul searchin' 'cause time has slipped away
There's a dream I left behind in better days
Feeling the changes, there's something in the wind
Gonna try to discover life's romance again
Lookin' for a loser who tore it all apart
Gonna take another look inside my heart
Doin' some soul searchin', lookin' for myself
Soul searchin', Lord, I need a little help
Soul searchin' 'cause time has slipped away
There's a dream I left behind in better days
