

Holy For Her (feat. Bob Moses)

Frank & Tony

Something you see
Something you needed
So you get by

Someone to please
Someone you ask for
Someone you see get by

Just what you want
Just what you needed
So you get by

Something to say
Something to die for
So you get by

Falling from here
You're falling ever faster
It's something that you're after
A reason that you need to disappear

This is everything you asked for
How could you ever want more
A reason that you need to keep me here
