Timothy

Ufo

Timothy tries but he can't explain
Tries and he tries but things shatter his brain
Comes from the garden shouting and grinning
Hey Timothy where do you come from?
Only befriended Jeremy Mouse
Seems to know what Timmy's talking about
Comes from the garden shouting and grinning
Hey Timothy where do you come from?

Does he come from the sky?
Does he come from the land?
Does he come from the earth?
Does he come from the sea? Timothy?
Hey Timothy now where do you come from
Where do you come from Timothy?
Hey Timothy, where do you come from
Where do you come from Timothy?
