While We're In Love

Ivy

While we're in love
We'll bleed each other dry
We'll hold each other close
We'll make each other cryWhile we're in love
We'll get what we deserve
Until we lose our faith
Unit we lose our nerveWe know it won't last forever
'Cause we're not meant to be together
Make the best of a bad situation
Face the fear and the desperation
While we're in love, while we're in loveWhile we're in love
We'll drag ourselves around
We'll hold each other up
We'll tear each other downWe know it won't last forever
'Cause we're not meant to be together
Make the best of a bad situation
Face the fear and the desperation
While we're in love, while we're in loveWe know it won't last forever
'Cause we're not meant to be together
Make the best of a bad situation
Face the fear and the desperation
While we're in love, while we're in love
While we're in love, while we're in love
