

When My Baby's Beside Me (Live In Memphis)

Big Star

Don't need to talk to my doctor
Don't need to talk to my shrink
Don't need to hide behind no locked doors
I don't need to think 'Cause when my baby's beside me, I don't worry
When my baby's beside me, all I know
When my baby's beside me, I don't worry
When my baby's beside me, all I know Read all my books and talked about
Listen to my radio
Been in school and dropped right out
Tryin' to find out what I didn't know But when my baby's beside me, I don't worry
When my baby's beside me, all I know
When my baby's beside me, I don't worry
When my baby's beside me, all I know Don't need to talk to my doctor
Don't need to talk to my shrink
Don't need to hide behind no locked doors
I don't need to think 'Cause when my baby's beside me, I don't worry
When my baby's beside me, all I know
When my baby's beside me, I don't worry
When my baby's beside me, all I know When my baby's beside me, I don't worry
When my baby's beside me, all I know
When my baby's beside me, I don't worry
When my baby's beside me, all I know
