

Star Up

Barbra Lica

Star Up

Every day I wake up and as I get dressed
I tell myself today I'm gonna to try my best
Because today's the day that I
Put my star up in the sky
So everybody can see how I shine
Yesterday I couldn't reach
But now I caught some zzzz's
So I'll string them all together
Like a big circus trapeze
And then I'll swing myself real high
Put my star up in the sky
So everybody can see it every night
And I know that every Jack and Jill
Has a star they're rollin up a hill
I'll just keep it on their window sill
For passersby
But Ima put my star up in the sky

When the clouds turn grey and raindrops start to fall
I tell myself today
I've got to give my all
Because today's the day that I
Put my star up in the sky
And ain't no rainstorm gonna tell me otherwise
And I've had days I've second guessed
But now I'm stealing third
And when I'm up to bat
You know I swing for all I'm worth
So my star is gonna fly
It's gonna make it way up high
Say hello and say goodbye
My darlin'
And I know that every Jack and Jill
Has a star they're rollin up a hill
I'll just keep it on their window sill
For passersby
And you know that every love and lover

Every little dreamer and his brother
Has another star they'd like to see up next to mine
Oh when I put my star up in the sky
When I out my star up in the sky
When I put my star up
