

# Fall Into the Light

Beca

There's something between us  
They say it's not right  
They don't believe us  
We'll show them tonight

Oh

---

Wake up, let's ride  
Into the sky  
As stars collide  
Fall into light

The music's forever  
If only they'd see  
When we're dancing together  
We'll always be free

Oh

---

Wake up, let's ride  
Into the sky  
As stars collide  
Fall into light

(Instrumental)

Wake up, let's ride (wake up)  
Into the sky (wake up)  
As stars collide (wake up)  
Fall into light (wake up)
