

# Ain't No Easy Way

## Black Rebel Motorcycle Club

It's easy to fall in love  
When you fall in love you know you're done  
You got easy eyes to hunt  
When the world above needs your blood  
And the cold vain to the richest man  
They're paid away to steal our hand  
There ain't no easy way, no there ain't no easy way out  
There ain't no easy way, no there ain't no easy way out  
There ain't no easy way, no there ain't no easy way out  
It's easy to fall in love  
When you're on your luck you know you're done  
And the last kiss had a foolish cause  
Now your tired eyes can only haunt  
There ain't no easy way, no there ain't no easy way out  
There ain't no easy way, no there ain't no easy way out  
There ain't no easy way, no there ain't no easy way out  
There ain't no easy way, no there ain't no easy way out  
There ain't no easy way, no there ain't no easy way out  
There ain't no easy way, no there ain't no easy way out  
There ain't no easy way, no there ain't no easy way out  
There ain't no easy way, no there ain't no easy way out  
It's easy to fall in love  
When you fall in love you know you're done  
It's easy to fall in love  
When you fall in love you know you're done
