

# Coffee Coffee Coffee

**Dave Dudley**

Some men drink alcohol  
Some men drink juices from the vine  
But as for me I'm very simple  
Give me coffee every time Make it warm and make it sweet  
Just the way my life has been  
Give me coffee, coffee, coffee  
Coffee, coffee And let me tell you  
You have found yourself a friend  
Cincinnati early in the morning  
I'm waitin' on an old Greyhound All make in Georgia  
Right around a new town  
I bring that coffee for a round Make it hot, make it now  
Put a little cream and sugar in  
Give me coffee, coffee, coffee  
Coffee, coffee And you have absolutely found yourself a friend A cup of china, a silver spoon  
Cream out ever golden can  
See that pot, ah, it's a pretty little  
And it's just like a music from a band These old bones are tired and weary  
The man you can put and love again  
Give me coffee, coffee, coffee  
Coffee, coffee I guarantee that you have found yourself a friend  
Yes sir, you have found yourself a friend  
I guarantee that you have found yourself a friend
