

# Song About You

## Care Bears On Fire

Stuck in here, got nothing to do  
But it's alright cause I can write about you  
If I have something to say I can say it out loud  
Say how you're just one of the crowd  
Bring it on, I'll write it down

This is a song about you  
You never listen to what I say  
A song about you, yeah you  
This is a song about you  
Figure it out, take you all day  
Song about you, yeah you

You think I write to get your attention  
But this ain't honorable mention  
You think this is part of a game  
Well, you and me, we just aren't the same  
Bring it on, I'll write it down

This is a song about you  
You never listen to what I say  
A song about you, yeah you  
This is a song about you  
Figure it out, take you all day  
Song about you, yeah you

You can walk, but I can run  
At the end of the day, what you have down  
It doesn't matter if you don't take it seriously  
This isn't for you, this song's for me

This is a song about you  
You never listen to what I say  
A song about you, yeah you  
This is a song about you  
Figure it out, take you all day  
Song about you, yeah you
