

# Nocturnal Me

## Ghost

In an ice-capped fire  
Of burning wood  
In our world of wire  
Ignite our dreams of starry skies  
And you and me  
As realized our bigger themes Oh, take me internally  
Forever yours  
Nocturnal me  
Take me internally  
Forever yours  
Nocturnal me Do or die  
What's done is done  
True beauty lies  
On the blue horizon Who or why  
What's one is one  
In pure disguise  
Of vulgar sons Oh, take me internally  
Forever yours  
Nocturnal me  
Take me internally  
Forever yours  
Nocturnal me Whatever burns, burns eternally  
So take me in turns internally  
When I'm on fire  
My body will be  
Forever yours  
Nocturnal me In an ice-capped fire  
Of burning wood  
In our world of wire  
Ignite our dreams of starry skies  
And you and me  
As realized our bigger themes Oh, take me internally  
Forever yours  
Nocturnal me  
Take me internally  
Forever yours  
Nocturnal me
