10 Miles Wide (featuring Josh Todd)

[Escape the Fate](#)

Whoa yeahYou say you're getting close to a last chance of suicide

Tearing at your throat you won't let it die

Left me here for all these days and ripped apart my prideTake my place and look inside I'm trying to find a place

To hide, hide

Lost my faith but don't you cry

I got a hole inside and it's ten miles wide

Yeah alrightLiving on the coast cocktails and telling lies

Gotta fucking curse that's coming to life

You left me here for all these days and ripped apart my prideTake my place and look inside I'm trying to find a place

To hide, hide

Lost my faith but don't you cry

I got a hole inside and it's ten miles wide

Yeah alrightIt's not to late I'm close behind I've gotta get inside your mind mind

Lost my faith but don't you cry

I got a hole inside and its ten miles wide

Wide [Repeat x7]Take me on I'm feeling in the mood for something dangerous I've found myself again

Take me on I'm feeling in the mood for something dangerous I've found myself againTake my place and look

inside I'm trying to find a place

To hide, hide

Lost my faith but don't you cry

I got a hole inside and it's ten miles wide

Yeah alrightWell I lost myself and looked inside it branded me for life

I can't help myself it's mine to hideI got a hole inside

It's feeling ten miles

It's feeling ten miles

It's feeling ten miles wideTen miles wide [Repeat x3]
