

# Cruise

## Guided By Voices

It runs throughout  
The place of fate  
She can keep you up to date  
And her ??? to intervene  
Coming closer in between you now  
Between you now x3  
And so the plan is up to you  
But no one tells you what to do  
And if they do you'll make a scene  
Nothing will get in between you now  
Between you now x7
