Living With a Hernia

"Weird Al" Yankovic

Help me out, digAll I do is grunt and groan, hurts me to walk anywhere
Went to see my physician, Dr. Jones
He took my trousers off, told me to cough
Doctor says there ain't nothin' to discuss
He tells me any day, I might have to wear a trussLiving with a hernia, all the time, such aggravation
Living with a hernia, gonna be my ruination
Living with a hernia, got to have an operation
Feel so oldToo much bad pain, good gawd, drives me insane
Can't run, barely crawl, got a bulge in my intestinal wall
Walk real funny, bless my soul, can't play tennis
And it's hard to bowl
You can't even do the splits now, say it
Better call it quits now, now I'm sick of all this dancin' anyhowLiving with a hernia, hurts me bad in a tender location
Living with a hernia, had enough humiliation
Living with a hernia, got to have an operationI live with a hernia, can't get up, can't bend over
Now I live with a hernia, wait a minuteYou may not be familiar with the common types
Of hernias that you could get
So just settle down, let me clue you in there's incomplete
Epigastric, bladder, strangulated, lumbar hernia, richter's hernia
Obstructed, inguinal and directLiving with a hernia rupture
I said it's causin' me such irritation
Living with a hernia, have to have my medication
Living with a hernia, I feel bad
