

I Wish I Didn't Love You So

[Willie Nelson](#)

I wish I didn't love you so
My love for you should have faded long ago.
I wish I didn't need your kiss
Why must your kiss torture me as long as this. I might be smilin' by now
With some new tender friend.
Smilin' by now
With my heart on the mend. But when I try
Something in that heart says "No".
You're still there
I wish I didn't love you so.
