

March to Die

Possessed

Marching to death's bell
Descending into hell
Judgement day is near
& you fate is dear March to die, die, die, die
Take my mind & soul
Countless heads will roll
Future lies with me
Come forth, & you will see March to die
Blackened is the sky
Is it heaven or hell?
Only time will tell Pendulum will swing
Manifesting screams
Oppression will prevail
Lower the window's veil
